Oval wooden canopy with 2 side holes for string light cable and Filé system. Made in Italy

Finish: White

Description

Designed to create unique wall or ceiling decorations, Filé is Creative-Cables' system for expertly handling string light cables.

This oval wooden rose window with 2 side holes can be used as a starting point to create wall or ceiling lighting compositions. Matched with other components within the Filé system (wall fairlead, lampholder and terminal block) allows you to create unique solutions to illuminate your interiors.

Each component is Made in Italy with poplar wood.

Choose the finish that best suits your needs: the black and white coatings will allow you to create a minimal look, while the natural version will be perfect for more Scandinavian inspirations.

The kit includes a wooden rose, dowels with screws for ceiling or wall mounting and a blocking system for the string lights cable.
