Large bark E27 lamp holder kit

Finish: Bark

Description

A Large bark lamp holder is used to assemble a wall, table or ceiling lamp either with a round or braided cable, or with any XL cable (16 mm diameter).

Each lamp holder is unique and made in Italy from a single piece of real wood: each one has a different shape and surface, with a slightly variable thickness (between 5 and 8 mm). Its nice rough appearance makes it a precious decorative element for chalets or country houses.

This large bark E27 lamp holder kit is definitely right for you if:

- you prefer a natural look&feel
- you love handcrafted unique pieces

To configure and complement your large bark E27 lamp holder kit:

- watch the tutorial and learn how to mount the lamp holder
- complete your lighting installation with Creative-Cables components, accessories, light bulbs and flex

A creative tip for you: enhance your lamp holder with a Golden XL Pear E27 lightbulb.
