Cement E27 lamp holder kit

Finish: Dark cement

Description

The E27 cement lamp holder kit is used to assemble a wall, ceiling or table lamp equipped with a round or twisted textile cable.

Concrete is a building material that has recently established itself as a real furnishing element inside houses and commercial activities. The porous surface typical of the material and the manufacturing process to which these components are subjected, results in a slightly different surface of each item from all the others, making each piece totally unique!

The E27 cement lamp holder kit is for you if:

- you prefer an industrial and contemporary look
- you appreciate raw materials and playing with textures

To configure and complete the E27 cement lamp holder kit:

- use the menus to define the features
- watch the tutorial and learn how to mount the lamp holder
- complete your lighting installation with Creative-Cables components, accessories, light bulbs and fabric covered

cables

A creative tip for you:

- match the E27 concrete lamp holder with a brightly coloured textile cable to create a lamp with bold contrasts.
