LED Golden Light Bulb Carbon Line Filament Cage Edison ST64 7W 640Lm E27 2700K Dimmable - C54

Description

The shape of the C54 light bulb takes after valves on old radios and televisions, to bring together modern technology and retro looks.

Patented and with vertical disposition, the filament inside the bulb flaunts modern technology and extreme efficiency, making it almost impossible to set apart from traditional ones.

Dimmable, with long lasting, ample light emission (15.000 hours for 20.000 on/off cycles). This light bulb radiates a warm, relaxing lighting which perfectly recreates the one seen in antique incandescent light bulbs. The 2700K colour temperature creates a cosy, bright atmosphere for a clear view of your surroundings.

Bebulbs, a brand that's always pushing the boundaries of design for charming, great-quality LED light bulbs, now presents the Carbon Line: a modern retake of the traditional incandescent light bulbs.

Data Sheet

Light bulb type: LED

Shape: Edison

Fitting: E27

Diameter: 64 mm

Length: 140 mm

Volt: 220/240V
