Pendant lighting Made in Italy complete with fabric cable, Swing Pastel lampshade with metal finishing

Light bulb: Without bulb

Finish: Soft blue

Smart Home: No

Description

Are you looking for a contemporary design pendant lamp to brighten up your rooms? The Swing Pastel ceiling lamp with enamelled metal lampshade, with its pure lines and pastel colours, is just what you need! The simple and very versatile design makes this lamp blend harmoniously into modern and contemporary spaces.

The pastel finishing contributes to accentuate brightness in even the smallest room and gives this lamp a subtle yet lively look, suitable for a variety of rooms, such as a kitchen, dining room or children's room. The iconic shape of the Swing lampshade leaves both the bulb visible, whose brightness is enhanced by the white inner surface of the lampshade itself, and the matching semi-threaded lamp holder E27.

This pendant light is ready to be installed and you can buy it complete with a bulb. We've chosen for you the clear

Edison ST64 LED bulb with long filament, which with its classic shape adds a retro touch. Alternatively you can browse our range of designer LED bulbs to find the one that best suits your style.

PLEASE NOTE: Some of the images shown are examples of multiple pendant configurations that can be created by purchasing multiple suspensions. The item for sale is a lighting installation with only ONE pendant.

You can also purchase this lamp in the Matter-integrated version, for lighting control with your voice or the apps you already use regularly. Turn the lights on and off, create automations, and make your lights interact with other smart home devices easily and without the need for installation.

NOTE: If a wall switch is connected directly after the line cable, turning off the lamp will also cut off power to the Matter switch. Consequently, it will no longer be able to receive commands via voice or app. However, once the light is turned back on from the wall switch, the Matter switch will be powered again and resume normal operation.
