Silicone E27 lamp holder kit with hidden cable clamp

Finish: Desert Brown

Description

If you're looking for a fun and colourful E27 silicone lamp holder for exposed light bulbs, this is the ideal solution for you. Long-lasting and made from high-quality materials, this product is soft, light and flexible. Additionally, the 12 available colours guarantee a striking yet functional result that adapts to any setting.

Why choose silicone?

Silicone boasts many qualities: it's light, durable, and soft to the touch whilst still maintaining a strong resistance to high temperatures, chemical aggressions and oxidation. This isolating and almost indestructible material has gained more and more traction amidst interior designers and customers alike.

Where to place this lamp holder

The Creative-Cables silicone E27 lamp holder kit with hidden cable clamp will help you unleash your creativity in any setting. Choose from a wide range of colours and match your lamp holder with your taste: whether you're dreaming of a modern and minimalist bedroom or a classic and vintage kitchen, we're sure you'll find the right silicone lamp holder

for you! Additionally, visit our website to explore our selection of silicone roses to create a striking coordinated lamp.

Want to use this lamp holder with a wall lamp instead of a suspension lamp?

The silicone E27 lamp holder can also be installed with accessories that require a M10x1 threaded tube such as joints, extensions or Creative Flex. This is why we decided to add a specific plastic accessory to the kit to attach in place of the cable clamp. This component will allow the silicone cover to maintain a perfect shape for any kind of lamp.

Select the quality and style of your Creative-Cables silicone E27 lamp holder kit. Add personality and flair to your lighting and make your home even more welcoming and colourful./p>
