Pinocchio, adjustable wooden wall bracket for pendant lamps

Finish: Black

Description

Pinocchio is not just a wall bracket: it is a Creative-Cables solution to hang any lamp by adjusting the distance from the wall.

Pinocchio has been designed to allow the passage of lamps that are already wired: the cable does not have to pass through holes but is wound around the knurled wooden supports that are inserted at both ends.

The arm (or nose) is mobile and can be fixed at three different Lengths to allow the desired aesthetic result.

Pinocchio's arm (or nose?) is mobile and can be fixed at three different Lengths to permit the wished aesthetic result.

Pinocchio allows to mount lamps and lampshades up to a maximum diameter of 50 cm.

Made of 100% beech wood in Italy, Pinocchio is available in a neutral wood finish, which can be painted as desired, or in a painted wood version.

Data Sheet

Pinocchio: wall bracket in beechwood.
