Thermoplastic E27 lamp holder kit with pull switch

Finish: White

Description

A double ferrule thermoplastic E27 lamp holder kit with pull switch is used to assemble a wall, table or ceiling lamp equipped with a lampshade.

Thermoplastic results lighter than bakelite and has a matte finish. The pull switch on the lamp holder allows you to turn the light on or off, also in those cases in which there is no wall or in-line switch.

This double ferrule thermoplastic E27 lamp holder kit with pull switch is definitely right for you if:

- you want a plain lamp holder at a smart price
- you have no wall or in-line switch

To configure and complement your double ferrule thermoplastic E27 lamp holder kit with pull switch:

- use the menus to define the features
- complete your lighting installation with Creative-Cables components, accessories, light bulbs and flex

WARNING! Cable clamp NOT included.
