Jute Brown Bark Textile Cable - The Original Creative-Cables - RN26 round 2x0.75mm / 3x0.75mm

N° of cores:: 2x0.75

Description

The original Creative-Cables.

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

The round electric cable covered in RN26 Bark Brown RN26 Jute is characterised by the rough appearance of its fibres. Thanks to the beauty of its natural fabric, this cable will be a perfect eco-friendly detail for your lamps. We suggest you combine it with wooden components to enhance the sense of warmth and its green attitude.

Creative-Cables' coloured electric leads are perfect for creating designer chandeliers, designing custom lamps, renewing a bedside lamp with a touch of colour and are 100% made in Italy.

Our electric cables are unique in their flexibility: we use a high quality PVC blend that was specially developed for us and which prevents the formation of bumps and folds.
