LED Light Bulb MINI GU10 3.2W 260Lm 2700K

Description

The LED MINI GU10 (or MR11) spotlight bulb is smaller than the normal bulb GU10.

You can use it to light up your wardrobes (no more excuses for the mess), to illuminate your cupboards (and all those marvellous knick knacks you purchased on your last trip) or even as a reading light (no more drifting off as soon as you open your book).

The LED MINI GU10 spotlight bulb has a directional light beam of approximately 260 lumens and 38° and a service life of approximately 25,000 hours.
