12-light Outdoor String Light IP67 - Marina12

Plug: UK

Finish: Olive green

Description

Marina12 redefines outdoor spaces with a balanced, continuous glow, ideal for setting the right mood from dusk till dawn. With its 14-metre length and lights spaced every 70 cm, it's perfect for lighting gardens, terraces, poolside areas and even professional settings like outdoor lounges or venues. Whether it's a party, dinner with friends, or simply a peaceful break under the open sky, Marina12 is ready.

Built to resist impact and harsh weather, Marina12 is protected against dust, rain and hail thanks to its IP67 rating, ensuring reliability even in tough conditions. IP67 guarantees strong protection against dust and resistance to temporary water immersion. The flexible structure and two end rings make installation simple, while the integrated plug means it's ready to go in no time. A long-lasting lighting solution, season after season.

Need a different length or a custom design? Drop us a line, we'll make it happen together.
