Cylindrical wooden 4-hole ceiling rose Kit

Finish: Neutral

Description

The 4-hole wooden ceiling rose kit is used to assemble a wall or ceiling lamp with four light sources. Wood, crafted in Italy, is a natural material that evokes many interior design styles: from Scandinavian to shabby, country and nautical.

The 4-hole wooden ceiling rose kit is for you if:

- you would like to make a quadruple lamp, i.e. with 4 bulbs
- You are looking for a natural look and feel.

The ceiling rose kit comes with wooden caps in case you don't want to use all four drops.

The natural wood finishing will be perfect for those who prefer a more rustic style and can be painted or impregnated as desired, while the wenge-effect finishing boasts a dark colouring, with purplish and black tones, to great aesthetic effect.

You can combine your ceiling rose kit with a lamp holder kit in the same wood finishing and with a coloured, round or twisted textile cable.
