Double ferrule black thermoplastic E27 lamp holder kit for lampshade and Lumet String Lights

Description

Lumet System is the solution by EIVA created specifically to illuminate gardens, terraces and gazebos!

This black thermoplastic E27 threaded lamp holder is designed to allow you to easily and autonomously compose your string lights, giving you the possibility to hang a lampshade and make your spaces even more special.

The threaded lamp holder can be installed on the rectangular string light cable at any point, so you can complete your string light or Filé system with a lampshade: choose from the many E27 LED bulbs in our assortment to select the perfect bulb to create the right atmosphere and complete your installation!
