LED Smoky Light Bulb Ghost Line Recessed Cone 6W 400Lm E27 1900K Dimmable - G11

Description

The stunning G11 light bulb boasts a unique inverted cone shape which, combined to the smoky glass, creates a charming, evocative atmosphere.

What makes this product unique?

The G11 is much more than just a light bulb: it's a true design piece that on top of illuminating your surroundings (400 Lm) also enhances it aesthetically thanks to the warm lighting (1900K) that recalls candlelight. The discreet filament positions along the border radiates an evanescent lighting, the perfect choice to illuminate your favourite corner.

Where and in what way can this light bulb be used?

With its conical shape and smoky glass, the G11 light bulb can be installed individually or in series, perhaps paired with an elegant chandelier. It creates an extraordinary retro atmosphere and offers an elegant touch in any setting, be it domestic or commercial.

What fitting does the G11 light bulb have?

The G11 light bulb features an E27/recessed fitting concealed within the glass for an extraordinary decorative effect.

Does the G11 light bulb have adjustable brightness levels?

Yes it does. This dimmable light bulb allows you to tailor the light intensity to suit your needs or desired ambiance.

Which technological features does the G11 light bulb employ?

The G11 light bulb employs LED technology, ensuring significant energy savings compared to traditional incandescent bulbs. Moreover, its product lifespan exceeds 20,000 hours, and with a Colour Rendering Index (CRI) of 90, the bulb also ensures sharp illumination while setting the right ambiance in any room.
