Switch/Diverter kit with butterfly nut and base in white porcelain
Knob finish: White

Description

Add a touch of retro charm to any environment with this white porcelain switch/diverter kit, perfect for creating or renewing a visible electrical system. The porcelain base is also ideal for large-section cables and allows you to connect multiple components of the same line and/or different light points.

The white porcelain switch/diverter stands out for its exclusive design that abandons the traditional rocker in favor of an elegant butterfly wing nut. Available in white with a contrasting wing nut or tone-on-tone, this kit adapts perfectly to any environment, giving uniqueness and style to homes, shops, bars, and restaurants.
