Glossy Beer Foam Vertigo Textile Cable - The Original Creative-Cables - ERM43 round 2x0.75mm / 3x0.75mm

N° of cores:: 2x0.75

Description

The original Creative-Cables.

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

This playful and spirited beer foam fabric Vertigo braided lighting cable is an excellent addition to add some vibrancy to any room.

The unique collection took its creative direction from the psychological thriller of the same name by Alfred Hitchcock.

Its high-quality and hardwearing fabric provides a unique, bold HD effect, appearing to be handpainted with a mixture of coloured and transparent threads. The look is a majestic and dignified final texture, which is both simple and striking. This unique cable will appeal to creative and bold designers out there who are looking to bring some joy into their design and make a real statement.

Creative-Cables wiring is made to be both very flexible and durable and compliant with all British and European standards.
