Fermaluce, thermoplastic wall or ceiling light

Finish: Copper

Light bulb: Without bulb

## Description

Fermaluce, the wall or ceiling light with E27 socket is the simple, economical and functional solution for creating a wall or ceiling light without sacrificing style. Featured by an essential design, it will be perfect in domestic or commercial environments with a minimalist taste.

Wall or ceiling light, also ideal for creating a wall light in the living room for reading or creating a strategic accent light to highlight a piece of furniture.

You can decide to buy the wall or ceiling light fitting complete with bulb: we have chosen the Dash porcelain-effect bulb for you. It will be perfect for creating surprising light effects, thanks to its innovative shape.  
The extra idea: combine several light fittings in sequence to create a wall or ceiling installation.
