Applique with porcelain effect light bulb - IP44 Waterproof - IO

Finish: White

Light bulb: With bulb

## Description

This light bulb with applique includes a cylindrical lamp holder, available in black and white finish, and a glass porcelain effect G150 light bulb, for a sophisticated result that radiates warm and diffused lighting.

Where can I install this lamp?

This applique boasts an IP44 Protection Degree thanks to the special membrane which protects the inner layer from atmospheric agents. What does this really mean? IP (International Protection) is an international rating which indicates an object's protection level against fine dust and liquids. The first digit (which ranges from 0 to 6) states that the lamp is protected against solid objects bigger than 1 mm, whilst the second (which ranges from 0 to 8) means that the applique with light bulb is protected against water splashes.

This makes the product compatible with outdoor use though must not be directly exposed to bad weather.

In which settings would the applique be most suitable?

This versatile lamp can be easily placed in classic or modern settings. The unique shape makes it so much more than a lamp: a piece of design which enhances the decor. whether it be on a wall or a ceiling, alone or in bulk. The soft and diffused lighting contributes to creating an intimate and welcoming atmosphere, ideal in any room of your home especially when paired with a table lamp or a suspension. On top of this, the fine and compact shape make it the perfect addition to any area with limited space.
