Cylindrical metal 4-side hole ceiling rose kit (junction box)

Finish: Brushed titanium

Description

A metal 4- side hole ceiling rose kit is used to assemble a wall or ceiling lamp with four light sources. Metal is a durable material that can be placed in many environments, whatever their style: no matter if minimal, Scandinavian, industrial or classic, you'll find the metallic finish that suits your needs!

This cylindrical metal 4- side hole ceiling rose kit (junction box) is definitely right for you if:

- you need a junction box to double or triple the conductor filament (side holes, if unused, can be hidden by some designated caps included in the package)
- you want to turn a light point into a junction on your wall or ceiling
- you are in love with a particular metallic finish, like brass or copper

To configure and complement your cylindrical metal 4- side hole ceiling rose kit (junction box):

- use the menus to define the features
- watch the tutorial and learn how to mount the ceiling rose
- complete your lighting installation with Creative- Cables components, accessories, light bulbs and flex

A creative tip for you:
- enrich the route of the fabric cables with a Spotaluce
