Natural Jute Textile Cable - The Original Creative-Cables - TN06 braided 2x0.75mm / 3x0.75mm

N° of cores:: 2x0.75

Description

The original Creative-Cables.

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

The twisted electrical cable covered in Jute TN06 combines the beauty of this natural fabric to a new manufacturing process, perfect to highlight the roughness of Jute.

Creative-Cables' colored electrical cables are perfect to create design lamps, renew an abat-jour, give a touch of color to your home or to your office and they are 100% Made in Italy.

Data Sheet

How to choose the type of coating: Rayon, Cotton or Linen?

Many customers ask us: what is the difference between the coatings Rayon, Cotton or linen? The answer depends entirely on the type of effect you want to achieve. Cotton and Linen have a matt and natural effect; the Rayon instead enhances color brilliance.

Often it is used to combine the natural effect with vintage items such as brass, copper, iron or porcelain, while Rayon is coupled with colored metal, with chrome or satin trims.

Choose your style!

Specifications:
