Spider - multiple 4-fall pendant light Made in Italy complete with fabric cable and wood finishing

Light bulb: Without bulb

Finish: Neutral

Description

Spider is Creative Cables' unique and charming multiple pendant lamp, which is both functional and decorative. Thanks to our Spider you can light up your home with a lamp designed and engineered in Italy. This 4-fall Spider is wall-mounted and is made from Made in Italy wood components.

Wood is a material that evokes different interior design styles, from Scandinavian to shabby and many others; whatever its shape, it can give the environment a warm and welcoming look. The decentraliser included in the kit will allow you to make 4 drops of varying heights, enabling the chandelier to adapt perfectly to any environment.

The design of the chandelier is completed by the presence of the LED bulbs: you can choose whether to buy Spider already complete with the bulbs we have selected for you, or alternatively you can decide which bulb to match among the E27 LED bulbs in our assortment, to find the one that best suits your style!
