LED Clear Light Bulb Ghost Line G125 CRI 90 4,5W 300Lm E27 2200K Dimmable - G05

Description

The G05 bulb is designed not only to provide illumination, but also to bring a touch of refined elegance to the room. With its spherical shape, it emits a light that envelops the space, transforming it into a true element of décor and design.

With a colour temperature of 2200K, reminiscent of the warmth of candles, the G05 creates a cosy and atmospheric atmosphere. Perfect on its own or in combination with other bulbs, it finds its ideal place in ceiling or wall lamps, adding retro chic charm to bars, restaurants, living rooms and bedrooms. The light seems to float in a vacuum thanks to the filament placed far from the lamp holder.

The transparent glass of the G05 bulb ensures excellent light diffusion, providing warm, even and dimmable illumination to customise the atmosphere as required.

When choosing the dimmer: in addition to the maximum wattage of the user, the minimum wattage must also be considered, as when the dimmed wattage is lower than the minimum nameplate wattage, the user may 'flicker' and/or be damaged.

Data Sheet

Bulb type: LED
Shape: Globe
Socket: E27
Width: 125 mm
Length: 165 mm
Volts: 220/240V
Watt: 4.5W
Energy class: G
Temperature: Warm light (2200 K)
Lumen output: 300 Lm (equal to an old 28W bulb)
Bulb life: 20,000 hours
Dimmable: Yes

Our straight filament dimmable bulbs are able to work with all trailing EDGE technology DIMMERS.
