Glossy White and Aluminum Vertigo Textile Cable - The Original Creative-Cables - ERM46 round 2x0.75mm / 3x0.75mm

N° of cores:: 2x0.75

Description

The original Creative-Cables.

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables. But really, for over 10 years their real name has been Creative-Cables.

This ephemeral and truly elegant white and aluminium fabric Vertigo braided lighting cable is an eye-catching addition to any room. With silvery, flowing metallic swirls and a hypnotic charm, this cable adds a stately addition to any room.

The unique Vertigo cables collection was heavily inspired by the film of the same name by the great Alfred Hitchcock.

This high-quality and hardwearing fabric provides an enthralling, unique HD effect, appearing to be hand painted in its detail, with a mixture of coloured and transparent threads that provides a graceful and polished final texture. This iconic cable will appeal to designers that are love the small details, ensuring that every aspect of a room and its lighting is elegant and beautiful.

As with all our wiring at Creative-Cables, these cables are soft, flexible and durable and conform to all UK and EU standards.
