Applique with exposed light bulb and half silver sphere - IP44 Waterproof - IO

Finish: Black
Light bulb: With bulb

Description

This G125 half sphere silver light bulb with applique is the ideal solution for those looking for an unobtrusive lamp with a striking design. A weather-resistant product which perfectly adapts to different settings, ranging from commercial to domestic.

What does this lamp include?

This applique with silver half sphere light bulb includes a cylindrical lamp holder, available in black and white finish, and a clear glass light bulb with a silver-coloured coating on the dome, for a unique visual impact.

Where can i install this applique?

Thanks to the special membrane which protects the inner layer from atmospheric agents, this lamp has an IP44

Protection Degree. What does this really mean? IP (International Protection) is an international rating which indicates an object's protection level against fine dust and liquids. The first digit (which ranges from 0 to 6) states that the lamp is protected against solid objects bigger than 1 mm like threads or tools, whilst the second (which ranges from 0 to 8) means that the applique with light bulb is protected against water splashes. This makes the product compatible with outdoor use though must not be directly exposed to bad weather but rather be installed under canopies or roofs. The product can also be installed in kitchens or bathrooms, where the risk of humidity would be higher.

In which settings would the applique be most suitable?

This versatile lamp can easily blend with any decor, ranging from industrial, modern or boho chic. A unique and sophisticated piece of design that steals the spotlight in any room. This light bulb also prevents any direct glare. On top of this, the fine and compact shape make it the perfect addition to any area with limited space.
