LED Spot Bulb Satin R63 9W 820Lm E27 3000K

Description

With a power of 820 lumens, this bulb characterized by a focused light beam represents an excellent combination of efficiency and design. Ideal for lighting worktables, displays, or areas requiring a warm and welcoming spot light, this bulb is equipped with an E27 socket, allowing a wide range of installation options.

Using LED technology, this bulb not only offers a high level of energy efficiency but also exceptional longevity, minimizing the need for replacement and ensuring constant light quality over long periods of continuous use.
