Vintage light fitting, thermoplastic wall or ceiling light

Finish: Chrome

Light bulb: Without bulb

Description

Fermaluce, the wall or ceiling light with E27 socket is the simple, economical and functional solution for creating a wall or ceiling light without sacrificing style. Its metallised textures will give your environment an essential and refined decoration, with a contemporary design that recalls a vintage style.

Wall or ceiling light, also ideal for creating a wall light in the living room for reading or creating a strategic accent light to highlight a piece of furniture.

You can decide to buy a wall or ceiling light fitting complete with bulb: we have chosen for you the Globo half sphere bulb that will give vintage echoes to your interior.

The extra idea: combine several light fittings in sequence to create a wall or ceiling installation.
