LED Drop Light Bulb Cross Filament A60 7W 720Lm E27 2200K Dimmable - X02

Description

The **E27 A60 cross filament LED light bulb** is a light source designed to deliver warm, diffused and visually pleasant illumination. The distinctive **cross filament** structure improves light distribution, limiting shadows and ensuring a more even output, ideal for residential and professional settings where aesthetics and functionality need to coexist.

With a **2200K** colour temperature, this LED light bulb creates an intimate and welcoming atmosphere, perfect for spaces such as living rooms, bedrooms, restaurants and hospitality environments. The **dimmable** function allows precise control of light intensity, adapting the lighting to different moments of the day. A solution designed to complement table lamps, pendant lamps and exposed installations, offering a harmonious balance between visual comfort, light performance and contemporary elegance.

Data Sheet

Bulb type: LED
 Shape: A60
 Base: E27
 Width: 60 mm
 Length: 108 mm
 Voltage: 220/240 V
 Power: 7 W
 Energy class: F
 Colour temperature: warm light 2200 K
 Luminous flux: 400 lm (equivalent to a traditional 40 W bulb)
 Lifetime: 15,000 hours
 Dimmable: yes

Dimmable straight filament LED light bulbs are compatible with trailing edge technology dimmers.

When choosing a dimmer, it is important to consider not only the maximum supported wattage but also the minimum load. When the regulated power drops below the indicated minimum value, the light source may flicker and or be damaged.
