LED Silver Half Sphere Globe Light Bulb G125 7W 650Lm E27 2700K Dimmable - A05

Description

Example of harmony between retro style and cutting-edge LED technology, this bulb with a silver dome provides a warm light, ideal for creating atmosphere in any type of environment. Furthermore, the combination of transparent glass and elegant metallic coating creates magical light effects while preventing glare. The 12.5 cm diameter and unique design are the distinctive features of this bulb: a highly decorative element capable of enhancing any space. Moreover, it is dimmable, allowing you to adjust the brightness according to the moment or need.

Data Sheet

Bulb type: LED
Shape: Globe
Socket: E27
Width: 125 mm
Length: 178 mm
Volt: 220/240 V

Watt: 7W
Energy class: F
Temperature: Warm light (2700 K)
Lumen output: 650 Lm (equivalent to an old 60W bulb)
Bulb lifespan: 15,000 hours
Dimmable: Yes

Please note: to correctly dim an LED bulb, a specific dimmer or the new generation of universal dimmers is required. You can find a selection of both wall and infrared models in the dedicated section on our website.

For the choice of the dimmer: in addition to the maximum power of the load, the minimum power must also be considered, as when the regulated power is lower than the minimum rated power, the load may "flicker" and/or be damaged.
